Chattanooga, Tennessee

Address:

2120 Polymer Drive, Chattanooga, Tennessee 37421
32 Lost Mound Drive, Chattanooga, Tennessee 37406

Start of Production:

1964 (Polymer Drive)
1971 (Lost Mound Drive - Amnicola)

Location:

Polymer Drive: The site is located near Highway 153 and Shallowford Road. The site is within one mile of the Chattanooga Airport.

Lost Mound: The site is located near Amnicola Highway on the banks of the Tennessee River, within four miles of downtown Chattanooga.

Site Manager: Robert Gagliano

Number of Plants: Two

Number of Employees: 116

Product/Uses:

Styrene-Butadiene Polymer Dispersions: Uses include adhesives, carpet backing, foams, paper coatings, and asphalt modifiers.

Site Overview:

Both Chattanooga facilities have a long history of sustained safety and environmental performance. The Lost Mound production facility sits adjacent to the Tennessee River and beside the Tennessee River Park. The River Park walkway traverses the length of the site in a demonstration of the successful coexistence of the chemical industry and community recreational assets. The site is also home to the Chattanooga based "TRACER" team. This team is trained and equipped to respond to incidents associated with the transportation and use of chemical products. The team regularly participates in joint emergency practice sessions with the Chattanooga Fire Department.

Economic Impact:

- Annual payroll of \$11.4 million*
- Capital investment of \$2.4 million in new plant equipment*

*Year-end 2009 data
